Z40 NATURE GARNETFRUIT

Squeezing pomegranates has never been easier.

Big amount of seeds and peel hardness of this fruit make difficult the squeezing process, but with the new automatic filter and mechanical improvements implemented in the Z40 Nature GarnetFruit, you will obtain an optimum squeeze with total autonomy.

Efficiently squeeze pomegranate juice

1. EVS® Advanced

Unique vertical juice extraction system; a Zummo exclusive. Based on manual juice extraction system it achieves maximum profitability, obtaining the purest possible juice with the greatest operational functionality.

2. Adapatación a la fruta

Juice extraction kits and blade that adapt to the pomegranate size and hardness. Exclusive feed system that avoids jamming. Juice extraction speed that adapts to the specific resistance of pomegranate.

Specific squeezing kit

3. Automatic filter

Comprised of a belt that starts to move when the juice extraction starts up, sweeping away the seeds and pulp that remain in the filter: greater juice extraction performance and greater autonomy.

Automatic filter

4. Adapt tray

Dual-position tap continuous or self service mode developed in the shape of a swing lever to optimise usability. Its exclusive Zummo design drains all the juice out, preventing it from accumulating in the base, and therefore maximising hygiene and juice purity.

Adapt tray

5. Cabinet Store

Especially designed retail cabinet. It is characterised by the "Easy Fill" space at the top, making it easier to fill large-capacity containers.
