

"FE" Series Automatic Coffee Urns

With today's demand for a cup of quality coffee, you need a Fast . . . Efficient and Dependable urn that can keep up with high volume customers. Both the "FE" and "CL" Automatic Coffee Urns extract the rich flavor of each coffee grind, bring out its full taste and aroma.

- ✓ **Adjustable By-Pass System** - Gives an operator the ability to adjust the strength of the coffee to bring out its natural robust and full body taste.
- ✓ **Automatic Refill** - Automatically replenishes the Urn jacket with fresh water as soon as it starts running low giving you piping hot water on demand.
- ✓ **Automatic Agitation (FE series only)** - At the end of each brew cycle, all FE urns automatically blend the coffee. Thereafter, just "Push the Button and Walk Away" the FE series agitates the coffee automatically.
- ✓ **Cycle Stop Switch** - Conveniently located on the front panel, the Stop Cycle Switch gives the operator the ability to stop the brew cycle midstream. It's also ideal for cleaning purposes.
- ✓ **Accurate Temperature Control** - Keeps coffee hot all the time.
- ✓ **Thermometer** - located on the front for the Urn, the thermometer indicates when the water is at optimum temperature for brewing coffee 197° - 204°.
- ✓ **Over Flow Tube** - In the event the water shut off valve malfunctions, the Over Flow tube dispenses the excess water.
- ✓ **FE-200 - Two Brew Buttons** - For high and low volume periods, this feature allows you to brew either 1 or 2 lbs. of coffee at a time by the push of the 1 or 2 lb. brew button.
- ✓ **FE-75 and FE-100** - Brews in 1 pound batches
- ✓ **FE-300** - Brews in 3 pound batches
- ✓ **Durable Stainless Steel Finish**
