# Why Krowne?

## Family Owned

For over 70 years, Krowne has designed and manufactured high quality products for commercial and institutional buildings. We take great pride in being an industry leader in quality and reliability. Our dedication to providing unparalleled service to every customer is what separates Krowne from the competition. From specification to installation and operation, you can count on Krowne every step of the way.

## Flexibility

Commercial buildings have unique needs based on local building codes, water efficiency, and accessibility. At Krowne, we make specifying projects simple by giving our customers the ability to configure products that will fulfill the requirements of various applications. Our new and innovative tool, FaucetFlex™, allows users to easily create a faucet based on the project specification in 3 simple steps.

FaucetFlex™

## Variety

Krowne offers a wide array of products that are used to satisfy requirements in multiple market segments. Each product is designed to exceed expectations by consistently utilizing the highest quality components to create a dependable product for every application.

Single Source  
Solution

## Commitment

At Krowne we understand the importance of a sustainable future. All products are engineered to meet or exceed most water use codes throughout the USA and the world. From public restrooms to commercial kitchens, we strive to ensure efficient water usage in each and every product we create.

## Reliability

For over 7 decades, Krowne has developed a reputation of superior quality and outstanding performance in the most demanding commercial environments. Our robust inventory and advanced warehouse management system allows us to quick-ship most products within 24 hours to meet on-site production deadlines.
