

Roll-in Cooler Rack

Extreme Duty®

Features

- All welded stainless steel construction. Resists corrosion in “high moisture” refrigerated environments.
- High strength heliarc welded ledges.
- Rolls easily across all surfaces on 5” plate casters.
- No pry points.
- Convenient 1-1/4” wide angle ledges. Spacing between ledges is 3”.
- Easy to clean and sanitize, simply wipe down or steam clean.

High strength heliarc welded ledges.

Specifications

Unit shall be of welded stainless steel construction, and shall have a total carrying capacity of 600 pounds, evenly distributed. Unit shall accept 20 each 18” x 26” (one per ledge) or 40 each 14” x 18” (two per ledge) trays. Upright legs shall be of .120 x 1” x 1” angle material. Tray ledges shall be 1-1/4” (32) wide of 16-gauge angle material. Ledges shall be spaced at 3”, and shall be continuously arc welded to upright legs at all points. Side panels shall have a center mounted vertical reinforcement of .104 angle stainless steel material, continuously arc welded to each tray ledge. Bottom cross member channels shall be 4” wide 18-gauge stainless steel with an additional 18-gauge stainless steel reinforcement. Casters shall be heavy-duty all swivel plate type, and shall be bolted to cross member channels with security hardware. Casters shall have 5” wheel with non-marking polyurethane tread.
