Hatco®

Flav-R-Savor® Large Capacity Display Cabinets

Models: WFST-1X, -2X,
LFST-48-1X, -2X

Hatco's Large Capacity Display Cabinets help you hold more food, while still maintaining proper serving temperatures. The left and right side heat sources create a "blanket" effect around the food. The air flow rate enables the cabinets to rapidly recover to preset temperature after opening and closing the door. Single-door or two-door options give you ease of self-serve applications or pass-thru convenience.

WFST (humidified). Prepare food in advance of peak periods and place product straight from the oven into the full-view cabinets to increase impulse sales. The use of controlled, moisturized heat maintains serving temperature and texture longer than conventional holding equipment.

LFST (non-humidified) models are perfect for holding wrapped or boxed products side-by-side, increasing visibility and easy access.

WFST-1X in standard Unfinished Metal (signs not included)

LFST-2X in Designer Black

Standard features

- Hold standard sheet pans 18" x 26" (457 x 660 mm)

- Tempered glass doors and side panels provide maximum heat retention and allow for full cabinet display

- Shatter-resistant incandescent lights (LFST) or LED lghting (WFST), enhance product displays

- Standard multi-purpose rack with shelves adjustable in 2" (51 mm) increments to fit multiple foodservice uses with slant or horizontal shelves

Options (available at time of purchase only)

Designer Colors✦ – Non-standard colors are non-returnable
– Unfinished Metal standard on WFST
– Black standard on LFST
☐ Clear Anodized Aluminum (LFST only)
☐ Warm Red   ☐ Black   ☐ Gray Granite   ☐ White Granite

☐ Temperature Control Timer - 6 channel control touchscreen display (WFST models only)

Accessories

☐ 4" (102 mm) Adjustable Legs (WFST models only)

WATER QUALITY REQUIREMENTS
Water supply in excess of 3.0 grains of hardness per gallon (GPG) (.75 grains of hardness per liter) must be treated and softened before being used. Water containing over 3.0 GPG (.75 GPL) will decrease the efficiency and reduce the operating life of the unit.
Note: Product failure caused by liming or sediment buildup is not covered under warranty.

✦ IFS anti-microbial coatings use naturally-occurring, environmentally sustainable, silver ions to help inhibit the growth of microbes on the powder coated surface. See www.hatcocorp.com/antimicrobial-paint for more information.

For operation, location and safety information, please refer to the Installation and Operating Manual.
