OPEN AIR MERCHANDISERS

VERTICAL · 28" DEEP · SHORT

EOMV-72-B-28-S

EOMV Series

Refrigeration System

· Bottom mounted, self-contained and fully detachable Blizzard R290 condensing unit uses environmentally friendly, EPA-compliant R290 refrigerant with zero (0) Ozone Depletion Potential (ODP) and three (3) Global Warming Potential (GWP). Blizzard R290 is easily replaceable and requires no on-site brazing.

· Front air intake and rear air discharge design allows side by side installation.

Electronically commutated (ECM) evaporator fan motors achieve rapid cooling with less energy consumption.

· High performance, auto-reverse condenser fan motor supports compressor ventilation and condenser coil cleaning.

· Large capacity, corrosion-resistant condenser and evaporator coils.

· Self-maintaining, energy-efficient condensate drain pan requires no external drains or electric heaters.

· Pre-wired and ready to plug, 115V/60Hz/1Ph, NEMA 5-20P.

Cabinet Construction

· Black modern exterior has moisture-resistant panels and field replaceable tempered glass. · Heavy-duty stainless steel interior has perforated back wall for efficient air flow. Includes floor drains for ease of cleaning.

- · Front stainless steel bumper belt protects against shopping cart impact.
- · Galvanized steel top, bottom and rear.
- 2.5" thick high-density polyurethane insulation.
- · Integrated retractable night curtain saves energy and provides security.
- · 5" swivel casters with locks on front set. Leg stabilizers included.

Lighting

· Shielded LED bar lighting under shelves and canopy provide bright, high color illumination at lower heat output. On/off switch saves energy

Shelvina

· Adjustable by height and angle. Position it flat or slanted downward at 10°. · Heavy duty stainless steel shelves include price tag moldings.

Temperature Control

· Factory preset temperature of 35°F maintains a combined average product temperature of 40°F or less.

· Audible overheat protection alarm for compressor and condenser coil.

Recommended Operating Conditions

· Conforms to NSF standard 7 TYPE II designed to operate in an air-conditioned environment where temperature and humidity do not exceed 80°F and 55% respectively. Must not be installed near ventilation systems, fans or exterior doors or windows that will

disrupt the air curtain. · Must not be installed in direct sunlight.

In built-in applications, a distance of 6" is required on the front, back and top exterior for ventilation purposes
